

**COLLEGIATE LEADERSHIP NETWORK**  
**At Celebración 2014**  
**(Omni Hotel – Dallas, Texas)**

**COLLEGIATE LEADERSHIP NETWORK** - The Collegiate Leadership Network (CLN) concentrates on furthering the development of the largest undergraduate Latino organization of NHI alumni both nationally and abroad through its proposed affiliated campus communities. The annual CLN convention at *Celebración* will be divided into three parts: the creation of a governing authority and appointment of a CLN representative to the NHI board of trustees; a forum for the exploration of social entrepreneurship as a lifelong community practice; as well as skill and capacity-building workshops that focus on entrepreneurship and the psychological/emotional transitions between college and the real world. The CLN also employs NHI networks and contacts to further the personal and professional success of its members.

At the annual CLN, participants create, review, and select different proposals on sustainable community enterprises for local implementation that promote leadership and excellence among area high school youth through projects conducted outside of regular college campus life.

Total anticipated training contact hours: 15 hours; professional networking: 3 hours; social and awards: 3 hours.
